

## **PROGRAM PURPOSE**

The accounting program focuses on current trends while providing the graduate with the knowledge and skills required in today's multifaceted business world. You'll learn in an innovative, educational environment from faculty members who have worked in business and accounting. The associate degree program focuses on entry-level skills and covers many important aspects of the field such as corporate accounting, payroll, taxation, computerized accounting, and information technology.

NMCC's accounting program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP). The accreditation represents the achievement of meeting the international standards established for associate degree-granting business programs.

Some graduates have continued their education and successfully passed the national CPA exam to become Certified Public Accountants.
