

## PROGRAM PURPOSE

The community paramedicine program is designed to educate practicing paramedics who are primarily employed in the pre-hospital emergency environment to become competent community paramedics. Community paramedics work collaboratively with public health, home care, and primary care professionals in non-emergency settings, filling gaps in the healthcare workforce. Community paramedics help patients meet critical health needs by assisting in establishing health systems that promote health and wellness while serving as advocates, educators, facilitators, liaisons, and resource coordinators. The program is designed to allow paramedics to perform needs assessments and assist in the development of community paramedicine initiatives that meet very specific and individualized community needs.

*Paramedics having earned an academic credential (associate degree or higher, in any field) may enroll directly into the certificate level of the program; those candidates who have not yet earning an associate degree will be considered for the Associate Degree in Science level of the program or the Community Paramedicine certificate program.*

## CAREER OPPORTUNITIES

Community Paramedicine is a new and exciting career choice for experienced paramedics. In addition to serving communities in the traditional roles, community paramedics are employed by:

- Acute care hospitals
- Assisted living organizations
- Municipalities
- Long term care facilities
- Public health entities

## APPLICATION PROCEDURE

*The following procedures constitute the admissions process:*

- 1 Submit an NMCC application.  
Submit official high school transcript and/or HiSET/GED scores (current senior's ranking period grades).
- 2 Official college transcripts for applicants who have attended other post-secondary schools.
- 3 If SAT scores are not available, placement testing may be required.
- 4 Meet with Admissions Counselor.
- 5 A campus tour is highly recommended.

*Note: Criminal history record search will be completed by NMCC personnel. Prior criminal convictions may preclude program admission and licensure.*
